

### REMARKS

Assignee accepts the Examiner's Amendment accompanying the Notice of Allowance dated January 25, 2006, with the following exceptions.

The Examiner's Amendment contains certain formatting and typographical errors that are being corrected. Claim 19 is amended to correct a formatting problem in the formula that it recites. Claim 27 is amended to correctly recite "the set of observed samples" in its part (d). Claim 50 is amended to correctly recite "comparing each set of observed samples" in its part (c)(1).

The Examiner's Amendment introduced some apparently unintended splitting of the compound words "overdetermined" and "therebetween." Claims 5, 14, and 25 are amended to restore those terms to their original state.

Claim 21 is amended to correctly recite "an impulse response" in its part (b). (That change is not the result of any error in the Examiner's Amendment.)

Respectfully submitted,  
NDSU RESEARCH FOUNDATION  
by its representative
